Overnight hire available
on these items.**

Power Requirements

25kva Large Silent Diesel Generator

You can stand next to this generator and hardly hear it running!

240v Electric Blower Fan

Petrol Blower Fan

4.2 kva Diesel Generator

4.2kva Silenced Diesel Generator

5.2kva Quiet Diesel Generator

7.2kva Quiet Diesel Generator

Please note

Most small items are delivered with electric fans which must be plugged into the hirers supply (i.e 13amp domestic socket) fans are supplied with a 25m cable. Petrol fans or petrol/diesel generators can be added to an order at an additional fee, if no power is available on site. Please remember if no staff from P&J Entertainments are supervising the units and petrol fans are chosen by the hirer, it is the hirer's responsibility to supply the correct fuel for these items. P&J Entertainments will supply generators full with fuel for a running time of approx 6 hours. On most larger units that are staffed with P&J Entertainments operators the customer may choose electric or petrol fans. When multiple items are booked petrol fans are preferred as to minimise the trip hazard with electric cables. Both items are included in the prices given also including fuel. Some items may need a generator to produce electricity to plug into, these are charged at an additional fee.

Please enquire when booking items, in most cases our booking team will explain these options to you.
